

ASHFAAQ KAZI

Product Manager · Healthcare Technology & AI
Montréal, QC · 416-899-1692 · ashfaaq.kazi@outlook.com
linkedin.com/in/ashfaaq-kazi · ashfaaqkazi.ca · Bilingual English & French

PROFESSIONAL SUMMARY

Healthcare-technology product manager with seven years at McKesson Canada's Specialty Health division, advancing from patient support program (PSP) case management through technical writing, project management, and product ownership. Builds and communicates product roadmaps, defines requirements and user stories, and drives Agile delivery across engineering, clinical, regulatory, and commercial teams. Served as Privacy & Compliance Lead for PIPEDA, PHIPA, and Quebec Law 25 across six healthcare digital properties. Bilingual (EN/FR) with hands-on AI/ML product integration experience, and most effective at the intersection of clinical rigor, regulated data, and user-centric design.

CORE COMPETENCIES

Product Roadmap Development · Feature Prioritization · Business Case Development · Requirements & User Stories · Acceptance Criteria & Release Planning · Project Planning (Timelines, Milestones, Gantt) · Agile / Scrum / Kanban / SAFe · Cross-Functional Coordination · Stakeholder Communication & Executive Reporting · Go-to-Market & Product Launch · Product Performance Analysis & KPIs · Regulatory Compliance (PIPEDA / PHIPA / Law 25) · AI/ML Product Integration

PROFESSIONAL EXPERIENCE

Rouge on Blue — Creative Digital Agency

Montréal, QC

Senior Product Manager

Aug 2025 – Present

- Own product vision and roadmap for B2B digital solutions across a multi-client agency portfolio.
- Translate client needs into user stories and manage the product backlog through Agile delivery.
- Design and deploy AI automation systems—multi-agent workflows and Google Workspace × Asana integrations—to streamline project operations.
- Lead cross-functional execution across web development, engineering, creative, and client success, with go-to-market support alongside marketing and sales.

McKesson Canada — Specialty Health

Montréal, QC

Jul 2018 – Jul 2025 · Seven years of progressive advancement across four roles

Digital Project Lead & Product Owner

Nov 2023 – Jul 2025

- Owned end-to-end product development for mission-critical healthcare applications serving 300,000+ members and 50+ pharmacy partners (Bien+ loyalty platform).
- Built and prioritized the product backlog by business value; ran sprint planning and Agile delivery (Scrum/Kanban); authored functional specifications, user stories, and acceptance criteria.
- Drove 40% year-over-year engagement growth and 95%+ partner adoption; defined and tracked KPIs for adoption, satisfaction, and business impact.
- Served as Privacy & Compliance Lead for PIPEDA, PHIPA, and Quebec Law 25 across six retail pharmacy digital properties (Uniprix, Proxim, Remedy'sRx, IDA, Guardian, Medicine Shoppe).
- Delivered AI-enabled automation workflows that optimized operations and reduced support tickets by approximately 35%.
- Coordinated closely with engineering, data, QA, and business stakeholders on feasibility, timelines, and release plans.

Project Manager

Feb 2022 – Nov 2023

- Managed strategic projects across therapeutic areas with budget oversight and vendor coordination.
- Built KPI dashboards and executive performance reports to track initiatives; embedded regulatory compliance (PIPEDA/PHIPA) into every deliverable.

Technical Writer

Jul 2020 – Feb 2022

- Authored governance documentation, standard operating procedures (SOPs), and process guidelines.
- Drove cross-functional process improvement and compliance reporting.

Reimbursement Case Manager — Amgen ProVital (Prolia & Evenity)

Jul 2018 – Jul 2020

- Managed end-to-end reimbursement cases for specialty biologics: insurance verification, prior authorization, and appeals.
- Navigated patients through the support journey, coordinating across clinics, insurers, and specialty pharmacies under PIPEDA-grade documentation standards.

EDUCATION

Certificate in Computer Science & Engineering	— McGill University	2025 – 2026
Certificate in Mathematics & Physics	— The Open University	2024 – 2026
